

Additives

Universal Coating Systems LLC, offers a variety of seed coating and treating additives that improve seed appearance as well as growth.

AquaCoat RTO

- A Water-absorbing additive
- Makes moisture and soil moisture readily available to the seed
- Sold in liquid formulation
- Germination Stimulation
- Water absorption capacity: 100-200 g/g
- Applied at 1.5% by weight of the seed (4.5ml/lb of seed)

UniColor

- Color options: Green, Red, Blue
- Made to be mixed with polymer or slurry

UniShine

- Powdered product
- Enhances flowability
- Added sheen to seed appearance

Applications Testing Lab

Universal Coating Systems has an applications testing lab at our Independence, Oregon facility where we can do applications testing in our rotary treatment systems to evaluate any products or materials a customer may want to test.
