

CleanCoat

CleanCoat is used for the treatment and coating of a variety of organic crop and vegetable seeds. CleanCoat is sold in a powder formula and available in neutral, blue, and green formulations.

- USDA NOP compliant organic seed treating and coating
- OMRI Listed
- Microplastic free
- Offered in powder formulation to be mixed with water on-site
- Color Options:
 - Neutral
 - Blue
 - Green
- Can be used to apply:
 - Microbial inoculants
 - Macronutrients
 - Micronutrients
 - Biostimulants

Dilution

CleanCoat can be diluted based on the customers preference and application needs.

Applications Testing Lab

Universal Coating Systems has an applications testing lab at our Independence, Oregon facility where we can do applications testing in our rotary treatment systems to evaluate any products or materials a customer may want to test.
