UniCoat P

UniCoat P is used for the treatment and coating of a variety of conventional crop and vegetable seeds. UniCoat P is sold in a powder formula and is available in several different colors based on customer preference.

- USDA NOP compliant organic seed treating and coating
- OMRI Listed
- Microplastic free
- Offered in powder formulation to be mixed with water on-site
- Can be used to apply:
  - Microbial inoculants
  - Macronutrients
  - Micronutrients
  - Biostimulants

Dilution

UniCoat P can be diluted based on the customers preference and application needs.

Applications Testing Lab

Universal Coating Systems has an applications testing lab at our Independence, Oregon facility where we can do applications testing in our rotary treatment systems to evaluate any products or materials a customer may want to test.
